

Human life

Your physical body consists of three parts:

- 1) Spirit
- 2) Soul
- 3) Physical body

Your spirit, which is life itself and which represents you alone, comes directly from the Prime Creator who is absolute pure love and wisdom. This is the reason why I constantly emphasize that is important to take the life from spirituality, from innermost parts, because only here you can find the real truth.

The soul is a characteristic manifestation of the spirit. Said in other word: the soul is a personage of spirit (I mean your specific behavior, properties etc.)

The physical body on this planet only serves as a box, that allows you to see and experience this world. Human body was created by Pseudo-creators and this body serves to jail of the soul and spirit. At the same time spirit and soul were closed into proton cases created by Pseudo-creators to prevent access information from the true positive creation and from the Prime creator with his nature the Lord Jesus Christ.

Because of this jail people overwhelmingly are forced to receive false information from the negative state = rejection of spirituality, rejection of God, accept only the existence of this physical world etc.

The only way how to get out of this jail is to live a loving and harmonious life, start human spiritual journey, enter into himself (into your spirit) and establish a connection with the Prime creator with his nature the Lord Jesus Christ. If you will devote your heart (your spirit), if you will live in a harmonious and loving life and if you start human spiritual journey, it causes open your spiritual heart, which you need to establish a connection with the Prime creator with his nature the Lord Jesus Christ. If you take your life by this way, the negative state gradually lose control of you and will increase the amount of true information coming from the true positive creation and from the Prime creator with his nature the Lord Jesus Christ.
